- High strength to weight ratio (all baths less than 100 kg's)
- Available in both modern and classic designs with a variety of sizes
- Flat to floor bath options for easier access (rim less than 500mm from floor )
- Under bath plumbing cavity options for easy installation and maintenance
- 11 bath models. 5 matching basins

#### COMPOSITION

ClearStone is a new material made from Dolomitic Marble.

The marble creates a tough and hard wearing surface ideally suited for modern demands of exceptional performance and endurance.

Aluminium compounds are added to make ClearStone not only lighter than traditional volcanic stone, but gives ClearStone its fire retardant and smoke suppressant qualities. A modern material both in performance and safety.

ClearStone benefits from the superior thermal performance of the Dolomitic composite, allowing the bath water to remain warmer longer. This also reduces problems with condensation in the bathroom.

ClearStone has a moulded high gloss polyester polymer coating or on selected models a Matt finish is available.

Dolomitic Marble

#### HIGH GLOSS

The moulded polyester polymer coating creates a high gloss finish ideal for matching to sanitary wares and tiles.

Being a moulded coating, rather than a sprayed or painted surface, ClearStone high gloss baths have the highest resistance to accidental damage, thermal degradation or hydrolysis. The moulded polyester polymer coat coating has a high resistance to ultra violet light, minimizing colour fading.

The coating is exceptionally hard wearing and resistant to scratching.

#### NEW MATT FINISH

New to ClearStone is a matt finish. Available in the Byron Baths and matching Formosa Basin, this finish is both hardwearing as well as luxurious.

#### **ELEGANT CURVES & DETAILS**

ClearStone allows the designers more scope to soften the outlines and details of the baths and basins, allowing a more sophisticated style.

ClearStone baths feature elegantly tapering edge details, and an overall softer appearance.

#### WEIGHT

The exclusive ClearStone composite of Dolomitic Marble with aluminium compounds give a strength to weight ratio which has allowed Clearwater to create baths which avoid the excessive weight common with many solid surface free standing baths.

ClearStone allows an average weight reduction of 30%.

ClearStone baths have a net weight of less than 100 kg – substantial enough for hotel projects, yet light enough for residential properties.

#### HAND MADE

Every ClearStone bath is hand made by three people. It takes over ten hours to hand finish each bath. The baths are 'one piece solid surface baths', meaning there are no joins.

#### EASY INSTALLATION

Every ClearStone product come with a simple installation guide. All baths are supplied in individual crates – so they reach your home in perfect condition. In addition we supply each bath in a heavy duty 'carrier bag' – so that it is easy for the installers to move the bath to the proposed location in our bathroom.

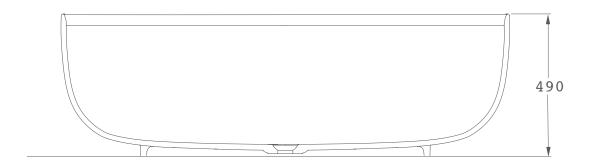

#### FULL TO FLOOR BATHS

The Clearwater range includes a selection of full to floor baths – this allows the top bath rim to have a floor to rim height of less than 500mm. These baths are much easier for getting in and out, and due to their low profile occupy much less 'visual space' in the room - ideal for open plan en-suite interiors.

(Twin, Pluro and Barwon)

#### UNDER BATH CAVITY OPTIONS

The Clearwater range also includes a variety of models which feature an under bath plumbing cavity. This allows for easy installation, and re-positioning the bath to the perfect final position.

(Patinato, Byron, Sontuoso, Pluro with Plinth and Canal)

# WASTES AND OVERFLOWS

ClearStone baths offer colour matched ClearStone wastes.

ClearStone baths are supplied with no overflow to achieve the popular modern uncluttered look.

Clearstone basins come with chrome click clack plug and wastes.

# MODELS

ClearStone baths are available in 11 bath models, covering modern and classical styles, and a variety of sizes.

There are 5 matching ClearStone basins:

- Formosa
- Pluro
- Palmero
- Sontouso
- Teardrop

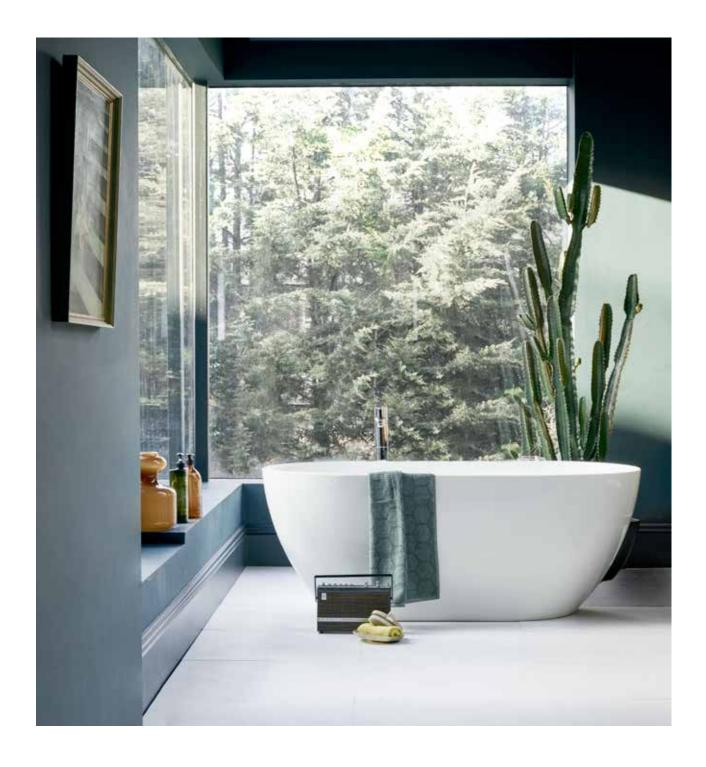

# Bathing in Luxury

Clearwater Baths has used international designers to bring together a stunning and elegant range of freestanding baths using the finest materials and engineering. Our innovative new material ClearStone has a lustrous finish across modern and classic designs. Choose from modern styles that reflect today's contemporary trends or alternatively, the timeless period freestanding, roll top designs from the Classic range.

#### BYRON

This understated, popular bath has clean and simple lines that create a shapely aesthetic well suited to all modern day bathrooms.
